How to Print Forms to Score Fluency

These forms are printed from the Forms tab at the top of the Home page.

1. Open your GradeCam account. At the very top of this page you should see a tab named “Forms”. Click on the “Forms” tab.

2. Another window opens up and on the left side click on “Credit/Score”.

3. Once you have chosen the Credit/Score form click on the drop down beside Blank Form and choose the class for which you want the forms.

4. Your students should each have a form. Print these out and bubble in the fluency score. Scan them into the system.
